

Tervetuloa Helsinkiin

Helsinki

The capital city of Finland, 600 000 inhabitants. Unique and beautiful old architecture. Surrounded by the sea.

1.1 million people live in the Helsinki metropolitan area. It's the world's northernmost urban area.

In 1952 the Summer Olympics took place in Helsinki. Finland used to be really good in sports.

Helsinki is located only 300 kilometers west of St. Petersburg.

Helsinki is 2012 World Design Capital. Kiasma: Contemporary art museum.

Kaivopuisto:

The most beautiful and romantic park by the Baltic Sea. On May 1st this park is full of students with white caps.

Suomenlinna:

"Scandinavian Gibraltar": The ship leaving from the harbor (near Kaivopuisto) brings tourists and Finns to the fortress island very close to the city. Nice for a walk around the castles and a romantic picnic on the green grass.
